Career Objective

Aspiring Computer Science and Engineering student with a passion for Artificial Intelligence and Machine Learning. Eager to contribute to meaningful projects through continuous learning, technical skill development, and creative problem-solving. Seeking opportunities that allow me to grow both personally and professionally while making a positive impact.

Education

09/2024 – 2028

Bachelor of Technology (B.Tech), CSE (AI & ML)

CMR Institute of Technology (CMRIT), Kandlakoya, Hyderabad
CGPA: 8.55

MPC Intermediate

Sri Chaitanya Junior Kalasala, Kukatpally, Hyderabad
Percentage: 95.6%

Skills

Programming

- Python
- C Programming
- DSA
- Java
- SQL

Projects

Military Game Pygame

Created a military game using Pygame with real-time action and basic strategy. Improved problem-solving by working on coding challenges and visual projects in Python.

Medical Shop Management System C language

Built a Medical Shop Management System to handle billing, inventory tracking, and customer records—all in one place.

Gained experience in designing structured workflows, improving data handling, and streamlining day-to-day shop operations through code.

Present Smart-Crop Advisory System for Small and Marginal Farmers -- SIH 2025

Our project is an AI-powered, multilingual mobile app/chatbot for small farmers. It offers real-time, personalized crop advice on soil health, pest/disease detection (via image), weather alerts, and market prices. We use AI/ML, NLP, and computer vision, with voice support for low-literacy users, to boost yields, cut costs, and promote sustainable farming.

Certifications

Oracle Cloud Infrastructure
2025 Certified AI Foundations
Associate
